Adobe Acrobat Pro × Microsoft

Reinvent your document workflows with seamless integrations.

Smart hybrid work requires solutions that let collaboration flow from anywhere. Adobe Acrobat Pro brings powerful integrations to Microsoft 365, putting essential PDF and e-signature tools where users need them the most.

Acrobat Pro and Microsoft 365 are better together.

Let everyone access, create, edit, and review high-quality PDFs directly from the Microsoft 365 applications they use every day.

Get more done in Word, Excel, and PowerPoint.

Export PDFs in editable Microsoft formats—Turn your PDFs into Word, Excel, or PowerPoint files while preserving fonts, formatting, and layouts.

Work smarter in Microsoft OneDrive and SharePoint.

Let users access, create, edit, save, review, organize, combine, and store documents directly in OneDrive and SharePoint while working in Acrobat Pro on desktop or mobile.

Empower real-time collaboration in Microsoft Teams.

Users can simultaneously view, comment, and annotate high-fidelity PDFs.

Avoid lengthy email chains—collect feedback in one shared PDF directly in Teams.

Get notified in Teams when others take action on your PDFs to make sure people stay on track.

Complete high-value PDF actions without leaving the app—convert, create, edit, export, and secure PDFs.

Adobe

✔ **Add value to your tech investment:**
IT managers maximize the value of current productivity solutions with integrations that cover tasks from end to end.

✔ **Automate your workflows:**
Reduce manual errors by automating routine, manual tasks inside Microsoft 365 apps.

✔ **Improve user experiences:**
Let everyone on campus review and execute docs without leaving their Teams call.

Improve workflows for all departments.

Student enrollment:

Transcripts, applications, course catalogs, and financial aid.
Improve and redesign current processes, from applications and enrollment to housing and beyond.

HR and staff management:

Employee onboarding, policies, benefits, and expenses.
Optimize hiring and HR processes to provide exceptional experiences for staff and faculty.

IT and facilities management:

IT requests, vendor agreements, contracts, and waivers.
Streamline facilities management and contract processes, and optimize IT service approvals.

Academics:

Lesson plans, course materials, assignments, and research.
Create an exceptional experience for students and teachers inside the classroom or at home with digital instruction materials and homework.
